IRON AND STEEL ENGINEER INDEX FOR 1940

Herewith is presented the index of all authors, papers, and discussions published in the IRON AND STEEL ENGINEER for the year 1940.

LIST OF AUTHORS

A

ARNOLD, C. N.—*Water Treatment for High Pressure Boilers*, August, 1940, Page 58.
ARNOLD, G. M.—*Modern Gas Mixing Systems as Applied to Steel Plant Requirements*, May, 1940, Page 35.
AUBURN, B. J., and R. H. WRIGHT—*Electrical Equipment for the Edgar Thomson Slabbing Mill*, June, 1940, Page 30.

B

BALL, H. W.—*Various Arrangements of Bridge Drives—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 36.
BLACK, J. F.—*Safety Procedure in Gas-Fired Furnaces—Safety Fuel Engineering*, August, 1940, Page 49.
BOHN, D. I., and J. E. HOUSLEY—*A Double Bus System for Power Transmission*, February, 1940, Page 26.
BRONGERSMA, C.—*Coefficients of Rolling Friction—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 44.
BURR, W. H.—*Developments in the Iron and Steel Industry During 1939*, January, 1940, Page 52.

C

CALDWELL, G. A.—*Electrical Equipment for Strip Processing Lines*, October, 1940, Page 26.
CALDWELL, G. A.—*Horsepower Requirements and Motor Application—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 47.
CALLINAN, E. E., and GILBERT SOLER—*Observations on the Heating of Steel from the Metallurgical Standpoint*, June, 1940, Page 48.
CAMPBELL, G. J.—*Methods of Purging Gas Lines, Gas Holders, Tanks, Etc.—Safety Fuel Engineering*, August, 1940, Page 40.
CARROLL, G. R.—*D-c. Mill Motor Standards*, August, 1940, Page 54.
CATLETT, J. T.—*Automatic Atomic Hydrogen Welding of Steel*, January, 1940, Page 25.
COLLISON, W. H., and F. C. FRYE—*Gas Mixing and Distribution at Great Lakes Steel Corporation*, October, 1940, Page 18.
COOK, NELSON E.—*Improvements in Galvanizing Plants and Practice*, July, 1940, Page 28.
CONWAY, M. J.—*Maintenance of Air Operated Tools*, December, 1940, Page 47.
COX, J. C.—*Crane Bridge Brakes—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 59.
CRAMER, F. W.—*Introduction—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 34.
CROCKETT, C. B.—*Electric Truck Transportation in Sheet and Strip Mills*, February, 1940, Page 17.

D

DAHLSTROM, F. P.—*Design and Operation of Gear Drives*, December, 1940, Page 23.
DANFORTH, GEORGE L., JR.—*Modernization of Existing Open Hearth Equipment*, February, 1940, Page 64.
DAVIS, E. C.—*Safety Procedure in Heavy Oil Fired Furnaces—Safety Fuel Engineering*, August, 1940, Page 51.
DAVIS, J. D.—*Coke and By-Product Yields from Various Coals*, February, 1940, Page 47.
DEPPELER, J. H.—*Welding Electrodes and Their Applications*, February, 1940, Page 32.
DUDLEY, WRAY—*Welding of Rail Ends and Joints of Crane Runways*, April, 1940, Page 58.
DUFFY, C. E.—*Safety and the Burning of Blast Furnace Gas—Safety Fuel Engineering*, August, 1940, Page 48.

E

ESS, T. J., and J. D. KELLY—*American Rolling Mill Company—Pioneer of the Continuous Strip Mill*, March, 1940, Page A-2.
ESS, T. J.—*Andrews Steel Company Diversifies Its Products*, March, 1940, Page 29.
ESS, T. J.—*Continuous Production Methods for Stainless Steel*, May, 1940, Page R-2.
ESS, T. J., and J. D. KELLY—*Granite City Steel Company—Steel Pioneers in the West*, July, 1940, GC-1.
ESS, T. J., and G. F. KERWIN—*Republic's Warren Furnace—The World's Largest*, January, 1940, Page 33.
ESS, T. J.—*Wisconsin Steel Company*, September, 1940, Page W-1.
ESS, T. J., and J. D. KELLY—*Youngstown Sheet and Tube Company, Chicago District*, September, 1940, Page Y-1.

F

FRANCK, C. C.—*Trends in Steel Mill Power Generation*, November, 1940, Page 18.
FRYE, F. C., and W. H. COLLISON—*Gas Mixing and Distribution at Great Lakes Steel Corporation*, October, 1940, Page 18.

G

GOULD, L. J.—*Welded Blast Furnace Stack*, June, 1940, Page 23.
GROVE, H. A.—*Problems in Stainless Steel Production*, November, 1940, Page 24.

H

HALSTEAD, H. L.—*Precautions in the Burning of Premixed Gases—Safety Fuel Engineering*, August, 1940, Page 50.
HARRY, R. J.—*Relation of Speed to Production Requirements—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 35
HARWOOD, P. B.—*Resistor Values and Acceleration—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 53.
HEDBERG, C. W., and L. M. ROBERTS—*Developments in Electrical Precipitation in Steel Plants*, July, 1940, Page 18.
HEINLE, W. C.—*Permissible Rates of Acceleration—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 41.
HILL, W. P.—*Treatment and Use of Water in Circulating Systems*, October, 1940, Page 60.
HISLEY, D. G.—*Operation of Gas Safety Regulators—Safety Fuel Engineering*, August, 1940, Page 46.
HOUSLEY, J. E., and D. I. BOHN—*A Double Bus System for Power Transmission*, February, 1940, Page 26.

J

JACKSON, J. A.—*Determination of Gear Ratio and Motor Size—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 49.
JOHNS, H. U.—*Power Generation Expansion at Bethlehem's Lebanon Plant*, December, 1940, Page 52.
JOHNSON, H. W.—*Details of Design No. 5 Blast Furnace Inland Steel Company*, April, 1940, Page 22.
JONES, J. H.—*Steel Mill Gear Tooth Wear and Failure*, October, 1940, Page 50.

K

KELLY, J. D., and T. J. ESS—*American Rolling Mill Company—Pioneer of the Continuous Strip Mill*, March, 1940, Page A-2.
KELLY, J. D., and T. J. ESS—*Granite City Steel Company—Steel Pioneers in the West*, July, 1940, Page GC-1.
KELLY, J. D., and T. J. ESS—*Youngstown Sheet and Tube Company, Chicago District*, September, 1940, Page Y-1.
KENYON, A. F.—*Electrical Equipment for Armco Slabbing Mill*, August, 1940, Page 32.
KENYON, A. F.—*Power Requirements of Cold Strip Mills*, May, 1940, Page 19.
KERWIN, G. F., and T. J. ESS—*Republic's Warren Furnace—The World's Largest*, January, 1940, Page 33.
KINKEAD, R. E.—*Stainless Clad Plate*, November, 1940, Page 29.

L

LENTZ, G. W.—*Mechanical Billet Chipping*, March, 1940, Page 26.
LEWIS, J. R.—*Compound Winding for Crane Bridge Motors—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 52.
LYNN, C.—*Determination of Rates of Insulation Deterioration*, December, 1940, Page 17.

M

McARTHUR, D. A.—*Strip Plant Finishing Equipment*, August, 1940, Page 22.
MAUGER, D. N.—*Some Modern Applications of Boilers in Steel Mills*, October, 1940, Page 40.
MOHLER, F.—*The Amplidyne—A New Tool of Many Uses*, September, 1940, Page 49.
MORRIS, J. S.—*Carbon Monoxide and Its Detection—Safety Fuel Engineering*, August, 1940, Page 43.
MOXLEY, T. R.—*Modern Maintenance Practice*, June, 1940, Page 58.
MURRAH, E. S., and H. W. POOLE—*Ward-Leonard Control for Strip Mill Auxiliary Drives*, December, 1940, Page 35.

P

PALMER, H. L., and H. W. POOLE—*Electron Tube Control for Steel Mill Application*, July, 1940, Page 46.
PECU, C. C.—*Progress of Lubrication in the Steel Mill*, January, 1940, Page 45.
POOLE, H. W., and H. L. PALMER—*Electron Tube Control for Steel Mill Application*, July, 1940, Page 46.
POOLE, H. W., and E. S. MURRAH—*Ward-Leonard Control for Strip Mill Auxiliary Drives*, December, 1940, Page 35.
PUETTE, R. L.—*Torque Requirements for Crane Bridge Braking—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 56.

R

REINARTZ, L. F.—*Improvements in Open Hearth Design and Operation*, September, 1940, Page 18.
ROBERTS, L. M., and C. W. HEDBERG—*Developments in Electrical Precipitation in Steel Plants*, July, 1940, Page 18.
RICE, E. C.—*Influence of Bearing Types on Journal Friction—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 44.
ROUSSEAU, A.—*Billet Grinding*, May, 1940, Page 49.

S

SCHNURE, F. O.—*Safe Crane Maintenance*, April, 1940, Page 55.
SKINKLE, W. B.—*Transition from 25 to 60 Cycle Power in the Steel Industry*, March, 1940, Page 45.
SOLER, GILBERT, and E. E. CALLINAN—*Observations on the Heating of Steel from the Metallurgical Standpoint*, June, 1940, Page 48.
SPOONER, A. P.—*Preparation of Semi-Finished Steel*, March, 1940, Page 22.

T

THOMAS, F. J.—*Modern Lubrication of Existing Equipment*, June, 1940, Page 39.
TRANTER, G. D.—*Quality Problems in the Operation of Wide Strip Mills*, July, 1940, Page 38.

V

VAN ARTSDALEN, G. O.—*Rehabiiitation of Electric Furnace Equipment*, December, 1940, Page 49.
VOSBURGH, F. J.—*Carbon Linings for Blast Furnaces*, April, 1940, Page 68.

W

WADD, R. J.—*Requirements of Bumpers and Rail Stops—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 46.
WALD, M. D.—*Development in Recovery of Pyridine Bases from By-Product Coke Ovens*, May, 1940, Page 55.
WEAN, R. J.—*Continuous Annealing*, September, 1940, Page 59.
WILCOX, H. L.—*Plugging and Dynamic Braking Crane Bridge Brakes—Crane Bridge Drives, Symposium on Equipment for Mill*, November, 1940, Page 57.
WINLACK, G. D.—*Steel Conditioning With the Oxy-Acetylene Method*, April, 1940, Page 44.
WRIGHT, R. H., and B. J. AUBURN—*Electrical Equipment for the Edgar Thomson Slabbing Mill*, June, 1940, Page 30.

1939, Cranes, Trolleys, and Bridges Purchased During—January, 1940, Page 68.

1939, Developments in the Iron and Steel Industry During—By W. H. BURR, January, 1940, Page 52.

1939, Electric Motors Over 300 Horsepower—Applied to Main Roll Drives in the Iron and Steel and Allied Industries During the Year—January, 1940, Page 70.

LIST OF SUBJECTS

A

Air Operated Tools, Maintenance of—By M. J. CONWAY, December, 1940, Page 47.
Alloy Plant for Copperweld Steel Company, New—June, 1940, Page 68.
American Rolling Mill Company—Pioneer of the Continuous Strip Mill—By T. J. ESS and J. D. KELLY, March, 1940, Page A-2.
The Amplidyne—A New Tool of Many Uses—By F. MOHLER, September, 1940, Page 49.
Andrews Steel Company Diversifies Its Products—By T. J. ESS, March, 1940, Page 29.
Annealing, Continuous—By R. J. WEAN, September, 1940, Page 59.
Annual Spring Conference, Review of—April, 1940, Page 16.
Applications of Boilers in Steel Mills, Some Modern—By D. N. MAUGER, October, 1940, Page 40.
Applied to Steel Plant Requirements, Modern Gas Mixing Systems as—By G. M. ARNOLD, May, 1940, Page 35.
ARMCO—Pioneer of the Continuous Strip Mill—By T. J. ESS and J. D. KELLY, March, 1940, Page A-2.
Armco Slabbing Mill, Electrical Equipment—By A. F. KENYON, August, 1940, Page 32.
Atomic Hydrogen Welding of Steel, Automatic—By J. T. CATLETT, January, 1940, Page 25.
Automatic Atomic Hydrogen Welding of Steel—By J. T. CATLETT, January, 1940, Page 25.
Auxiliary Drives, Ward-Leonard Control for Strip Mill—By E. S. MURRAH and H. W. POOLE, December, 1940, Page 35.

B

Bases from By-Product Coke Ovens, Development in Recovery of Pyridine—By M. D. WALD, May, 1940, Page 55.
Billet Chipping, Mechanical—By G. W. LENTZ, March, 1940, Page 26.
Billet Grinding—By A. ROUSSEAU, May, 1940, Page 49.
Blast Furnace Inland Steel Co., Details of Design No. 5—By H. W. JOHNSON, April, 1940, Page 22.
Blast Furnace Stack, Welded—By L. J. GOULD, June, 1940, Page 23.
Blast Furnaces, Carbon Linings for—By F. J. VOSBURGH, April, 1940, Page 68.
Boilers in Steel Mills, Some Modern Applications of—By D. N. MAUGER, October, 1940, Page 40.
Boilers, Water Treatment for High Pressure—By C. N. ARNOLD, August, 1940, Page 58.
Bus System for Power Transmission, A Double—By D. I. BOHN and J. E. HOUSLEY, February, 1940, Page 26.
By-Product Coke Ovens, Development in Recovery of Pyridine Bases from—By M. D. WALD, May, 1940, Page 55.
By-Product Yields from Various Coals, Coke—By J. D. DAVIS, February, 1940, Page 47.

C

Carbon Linings for Blast Furnaces—By F. J. VOSBURGH, April, 1940, Page 68.
Chipping, Mechanical Billet—By G. W. LENTZ, March, 1940, Page 26.
Circulating Systems, Treatment and Use of Water in—By W. P. HILL, October, 1940, Page 60.
Clad Plate, Stainless—By R. E. KINKEAD, November, 1940, Page 29.
Coals, Coke and By-Product Yields from Various—By J. D. DAVIS, February, 1940, Page 47.
Coke and By-Product Yields from Various Coals—By J. D. DAVIS, February, 1940, Page 47.
Coke Ovens, Development in Recovery of Pyridine Bases from By-Product—By M. D. WALD, May, 1940, Page 55.
Cold Strip Mills, Power Requirements of—By A. F. KENYON, May, 1940, Page 19.
Committees for 1940, National—January, 1940, Page 18.
Conditioning With the Oxy-Acetylene Method, Steel—By G. D. WINLACK, April, 1940, Page 44.
Constitution—Association of Iron and Steel Engineers, January, 1940, Page 20.
Continuous Annealing—By R. J. WEAN, September, 1940, Page 59.
Continuous Production Methods for Stainless Steel—By T. J. ESS, May, 1940, Page R-2.
Control for Steel Mill Application, Electron Tube—By H. L. PALMER and H. W. POOLE, July, 1940, Page 46.
Control for Strip Mill Auxiliary Drives, Ward-Leonard—By E. S. MURRAH and H. W. POOLE, December, 1940, Page 35.
Copperweld Steel Company, New Alloy Plant for—June, 1940, Page 68.
Crane Bridge Drives, Symposium on Equipment for Mill—Introduction by F. W. CRAMER, November, 1940, Page 34.
Crane Bridge Drives, Symposium on Equipment for Mill—Relation of Speed to Production Requirements—By R. J. HARRY, November, 1940, Page 35.
Crane Bridge Drives, Symposium on Equipment for Mill—Various Arrangements of Bridge Drives—By H. W. BALL, November, 1940, Page 36.

Crane Bridge Drives, Symposium on Equipment for Mill—Permissible Rates of Acceleration—By W. C. HEINLE, November, 1940, Page 41.
Crane Bridge Drives, Symposium on Equipment for Mill—Coefficients of Rolling Friction—By C. BRONGERSMA, November, 1940, Page 44.
Crane Bridge Drives, Symposium on Equipment for Mill—Influence of Bearing Types on Journal Friction—By E. C. RICE, November, 1940, Page 44.
Crane Bridge Drives, Symposium on Equipment for Mill—Requirements of Bumpers and Rail Stops—By R. J. WADD, November, 1940, Page 46.
Crane Bridge Drives, Symposium on Equipment for Mill—Horsepower Requirements and Motor Application—By G. A. CALDWELL, November, 1940, Page 47.
Crane Bridge Drives, Symposium on Equipment for Mill—Determination of Gear Ratio and Motor Size—By J. A. JACKSON, November, 1940, Page 49.
Crane Bridge Drives, Symposium on Equipment for Mill—Compound Winding for Crane Bridge Motors—By J. R. LEWIS, November, 1940, Page 52.
Crane Bridge Drives, Symposium on Equipment for Mill—Resistor Values and Acceleration—By P. B. HARWOOD, November, 1940, Page 53.
Crane Bridge Drives, Symposium on Equipment for Mill—Torque Requirements for Crane Bridge Braking—By R. L. PUETTE, November, 1940, Page 56.
Crane Bridge Drives, Symposium on Equipment for Mill—Plugging and Dynamic Braking Crane Bridge Brakes—By H. L. WILCOX, November, 1940, Page 57.
Crane Bridge Drives, Symposium on Equipment for Mill—Crane Bridge Brakes—By J. C. COX, November, 1940, Page 59.
Crane Maintenance, Safe—By F. O. SCHNURE, April, 1940, Page 55.
Crane Runways, Welding of Rail Ends and Joints of—By WRAY DUDLEY, April, 1940, Page 58.
Cranes, Trolleys, and Bridges Purchasing During 1939—January, 1940, Page 68.

D

D-c. Mill Motor Standards—By G. R. CARROLL, August, 1940, Page 54.
Design and Operation, Improvements in Open Hearth—By L. F. REINARTZ, September, 1940, Page 18.
Design No. 5 Blast Furnace Inland Steel Co., Details of—By H. W. JOHNSON, April, 1940, Page 22.
Design and Operation of Gear Drives—By F. P. DAHLSTROM, December, 1940, Page 23.
Details of Design No. 5 Blast Furnace Inland Steel Co.—By H. W. JOHNSON, April, 1940, Page 22.
Determination of Rates of Insulation Deterioration—By C. LYNN, December, 1940, Page 17.
Development in Recovery of Pyridine Bases from By-Product Coke Ovens—By M. D. WALD, May, 1940, Page 55.
Developments in Electrical Precipitation in Steel Plants—By C. W. HEDBERG and L. M. ROBERTS, July, 1940, Page 18.
Developments in the Iron and Steel Industry During 1939—By W. H. BURR, January, 1940, Page 52.
Discussion: The Amplidyne—A New Tool of Many Uses—Presented by JAMES FARRINGTON, R. L. LIVINGSTON, C. L. McGRANAHAN, J. I. KASPARI, F. MOHLER, B. J. BALLARD, G. R. CARROLL, BRENT WILEY, A. D. McCREARY, and A. G. YOUNG, September, 1940, Page 57.
Discussion: Automatic Atomic Hydrogen Welding of Steel—Presented by WRAY DUDLEY, J. T. CATLETT and E. H. TURNOCK, January, 1940, Page 31.
Discussion: Billet Grinding—Presented by W. C. McCONNELL, A. ROUSSEAU, A. K. BLOUGH, and L. D. BOWMAN, May, 1940, Page 54.
Discussion: Coke and By-Product Yields from Various Coals—Presented by C. P. BETZ, A. R. POWELL, R. W. CAMPBELL, and F. W. WAGNER, February, 1940, Page 62.
Discussion: Design and Operation of Gear Drives—Presented by W. P. SCHMITTER, R. S. MARTHENS, MAURICE RESWICK, E. W. BUCKINGHAM, and F. P. DAHLSTROM, December, 1940, Page 31.
Discussion: Details of Design No. 5 Blast Furnace Inland Steel Co.—Presented by L. E. RIDDLE, T. L. JOSEPH, A. L. FOELL, A. J. HULSE, J. G. WEST, JR., ARTHUR G. McKEE, E. K. MILLER, H. W. JOHNSON, H. E. McDONNELL, H. COPE, FRED DENIG, and J. C. BARRETT, April, 1940, Page 35.
Discussion: Determination of Rates of Insulation Deterioration—Presented by G. C. PFEFFER, C. LYNN, G. O. VAN ARTSDALEN, F. O. SCHNURE, L. V. BLACK, J. E. ERICKSON, and WM. SIEBENMORGEN, December, 1940, Page 20.
Discussion: Developments in Electrical Precipitation in Steel Plants—Presented by R. A. NIELSEN, L. E. RIDDLE, A. F. NESBIT, B. M. STUBBLEFIELD, L. M. ROBERTS, L. C. EDGAR, R. A. FIELD, A. J. MacDONALD, J. D. JONES, R. H. SCHALLER, JAMES FARRINGTON, and H. RICHARDSON, July, 1940, Page 23.
Discussion: A Double Bus System for Power Transmission—Presented by C. A. POWEL, D. I. BOHN, W. A. PERRY, J. E. HOUSLEY, and H. A. RANDALL, February, 1940, Page 30.
Discussion: Electric Truck Transportation in Sheet and Strip Mills—Presented by F. O. SCHNURE, C. B. CROCKETT, D. W. DEAN, and W. VAN C. BRANDT, February, 1940, Page 23.
Discussion: Electrical Equipment for Armco Slabbing Mill—Presented by W. A. PERRY, L. A. UMANSKY, A. F. KENYON, L. V. BLACK, and T. E. HUGHES, August, 1940, Page 38.
Discussion: Electrical Equipment for the Edgar Thompson Slabbing Mill—Presented by M. H. MORGAN, JR., R. H. ELLIS, T. R. RHEA, JAMES FARRINGTON, J. I. KASPARI, and R. H. WRIGHT, June, 1940, Page 36.
Discussion: Electron Tube Control for Steel Mill Application—Presented by F. D. EGAN and E. H. VEDDER, July, 1940, Page 59.
Discussion: Improvements in Galvanizing Plants and Practice—Presented by R. L. ALLSHOUSE, R. J. WEAN, R. E. O'BRIEN, NELSON E. COOK, FREEMAN H. DYKE, D. O. FISHER, MATT WILSON, F. J. O'BRIEN, W. F. McGARRITY, HAROLD P. GAW, and GILES SYDNOR, July, 1940, Page 35.
Discussion: Improvements in Open Hearth Design and Operation—Presented by J. A. CLAUSS, A. E. ABEL, A. F. MORANTY, M. J. CONWAY, and L. F. REINARTZ, September, 1940, Page 28.
Discussion: Maintenance of Air Operated Tools—Presented by N. C. BYE, M. J. CONWAY, L. V. BLACK, and J. C. REED, December, 1940, Page 48.
Discussion: Mechanical Billet Chipping—Presented by W. C. McCONNELL and G. W. LENTZ, March, 1940, Page 28.
Discussion: Modern Gas Mixing Systems as Applied to Steel Plant Requirements—Presented by CARL MENGES, A. J. FISHER, H. J. VELTEN, P. F. KINYOUN, and G. M. ARNOLD, May, 1940, Page 43.
Discussion: Modern Lubrication of Existing Equipment—Presented by T. R. MOXLEY, R. M. GORDON, F. L. GRAY, E. S. GLAUCH, S. A. NEWMAN, and W. H. MANDY, June, 1940, Page 45.
Discussion: Modern Maintenance Practice—Presented by F. H. DYKE, J. B. WHITLOCK, H. L. DAWSON, T. R. MOXLEY, E. W. TREXLER, J. M. MORRIS, H. B. CONOVER, HARRY D. ROBB, H. H. SHAKELY, J. S. GREEN, E. H. BEATTY, H. E. REITH, and A. W. STEED, June, 1940, Page 61.
Discussion: Modernization of Existing Open Hearth Equipment—Presented by W. C. KITTO and L. F. REINARTZ, February, 1940, Page 73.
Discussion: Observations on the Heating of Steel from the Metallurgical Standpoint—Presented by G. M. COUGHLIN, E. E. CALLINAN, A. J. FISHER, J. L. MILLER, H. V. FLAGG, R. I. GUMAER, P. H. BRACE, GILBERT SOLER, J. R. BEHRMAN, and J. D. KELLER, June, 1940, Page 54.
Discussion: Power Generation Expansion at Bethlehem's Lebanon Plant—Presented by L. F. COFFIN, H. C. SIEBERT, N. C. BYE, R. L. ASHLEY, L. V. BLACK, F. C. SCHOEN, G. J. WALZ, F. O. SCHNURE, S. T. POWELL, L. J. GOULD, W. P. HALL, and A. G. DARLING, December, 1940, Page 57.
Discussion: Power Requirements of Cold Strip Mills—Presented by L. A. UMANSKY, W. A. PERRY, F. D. EGAN, R. H. ELLIS, A. F. KENYON, M. STONE, G. E. STOLTZ, L. R. MILBURN, H. W. NEBLETT, F. MOHLER, and JAMES FARRINGTON, May, 1940, Page 31.
Discussion: Preparation of Semi-Finished Steel—Presented by H. G. R. BENNETT, J. M. REUBENDALE, A. P. SPOONER, GILBERT SOLER, and A. K. BLOUGH, March, 1940, Page 25.
Discussion: Progress of Lubrication in the Steel Mill—Presented by E. S. GLAUCH and MAURICE RESWICK, January, 1940, Page 51.
Discussion: Quality Problems in the Operation of Wide Strip Mills—Presented by F. H. DYKE and C. L. McGRANAHAN, July, 1940, Page 45.
Discussion: Rehabilitation of Electric Furnace Equipment—Presented by L. V. BLACK, December, 1940, Page 51.
Discussion: Safety Fuel Engineering—Presented by M. J. CONWAY, L. J. GOULD, N. C. BYE, J. S. MORRIS, A. J. FISHER, and L. F. COFFIN, August, 1940, Page 52.
Discussion: Some Modern Applications of Boilers in Steel Mills—Presented by A. J. F. MacQUEEN, D. N. MAUGER, W. H. COLLISON, GARRETT BURGESS, S. M. OGLEBY, L. S. VOIGHT, L. A. UMANSKY, and L. R. MILBURN, October, 1940, Page 48.
Discussion: Steel Conditioning With the Oxy-Acetylene Method—Presented by W. C. McCONNELL, G. D. WINLACK, A. K. BLOUGH, H. G. R. BENNETT, J. M. REUBENDALE, HAROLD M. FLAHERTY, W. W. JUSTICE, J. J. DAVIS, A. H. ROOSMA, H. E. PAETOW, JOSEPH COOPER, and W. L. WITNEY, April, 1940, Page 53.
Discussion: Steel Mill Gear Tooth Wear and Failure—Presented by L. F. COFFIN, W. P. SCHMITTER, S. L. CRAWSHAW, F. L. GRAY, F. J. THOMAS, R. M. GORDON, J. W. KIGHT, and J. H. JONES, October, 1940, Page 53.
Discussion: Strip Plant Finishing Equipment—Presented by G. G. BEARD, C. L. McGRANAHAN, L. F. COFFIN, and D. A. McARTHUR, August, 1940, Page 30.
Discussion: Transition from 25 to 60 Cycle Power in the Steel Industry—Presented by W. A. PERRY, F. O. SCHNURE, G. E. STOLTZ, and A. G. DARLING, March, 1940, Page 48.
Discussion: Treatment and Use of Water in Circulating Systems—Presented by N. C. BYE, W. P. HILL, W. W. HODGE, H. J. DIBBLEE, H. M. RIVERS, and F. C. SCHOEN, October, 1940, Page 66.
Discussion: Ward-Leonard Control for Strip Mill Auxiliary Drives—Presented by W. A. PERRY, G. E. STOLTZ, and JAMES FARRINGTON, December, 1940, Page 46.
Discussion: Welded Blast Furnace Stack—Presented by W. S. MORE, CARL HOFFMAN, ARTHUR G. McKEE, L. F. COFFIN, and L. J. GOULD, June, 1940, Page 27.
Discussion: Welding Electrodes and Their Applications—Presented by W. R. PERSONS, E. H. TURNOCK, and H. O. WESTENDARP, JR., February, 1940, Page 46.
A Double Bus System for Power Transmission—By D. I. BOHN and J. E. HOUSLEY, February, 1940, Page 26.
